Additionally, I can help you plan additional travel in India, so please let me know if you want to talk.

Travel Insurance

It is HIGHLY recommended that you purchase travel insurance in case there are any emergencies or changes of plans. You can find many companies to choose from, but below are two that are highly rated:

Alliance Insurance

Travelex

Visa Information

If you have a foreign passport, please check to see what special requirements the country of origin requires when applying for a Visa. Some countries DO NOT allow EVisa to be used from the USA.

Getting a visa can sometimes seem complicated when dealing with the Indian bureaucracy, but I want to share with you what I have below.

Option #1 (EVisa)

Currently, the Indian government is offering EVisa for 30 days, one year, or five years. These are gotten online and can be applied for within 60 days before you need them. This is the most cost-effective way to get your Visa, but maneuvering online will take longer. The online portal to start this process is <https://indianvisaonline.gov.in/evisa/tvoa.html>, and you will find a button that says “click here to apply for EVisa. I suggest you first look at the sample document button and ensure you have all your information. This cost is around \$35-75, depending on your application length.

Option #2 (Using a Service)

You can hire a company to take care of this for you. This is nice if you want to avoid spending the time and want to speak with someone live at any time. Many companies handle your passport and visa needs, but you will pay a handling fee of over \$200. The company I would go to is Travia at <https://www.travia.com>, and their phone is 877-876-3266

Tour Company and Guide in India

If you want to arrange extra travel within India, I suggest the following company and gentleman to help. Most destinations around India are accessed through New Delhi or Mumbai. Deepak is located in New Delhi and is very reputable and can help arrange and book travel and tours.

Immunizations

Your best bet is to check with your medical doctor and the CDC, but the resort we are staying at does NOT recommend any immunizations. The first time I visited India, I updated my immunizations per the doctor's suggestion, but I have never taken anything more than a probiotic daily.
